Proposals for new programs and all types of major modifications must be given the green light to proceed; a meeting for the academic unit with the Dean's Office may be scheduled to review the proposal, and in particular its resource implications.

Proposals for new programs, major modifications [new freestanding Minor; new Major or Specialist where there is an existing Major or Specialist; modifications to an existing program, including adding or closing formal streams; new Combined Degree programs; new Double Degree programs], program closures, and minor modifications to introduce a new Minor where there is an existing Major or Specialist **must be submitted on the appropriate proposal template, in MS Word format**; templates can be requested from the Academic Programs Officer.

All minor program modifications (except a new Minor where there is an existing Major or Specialist), and all types of course proposals (new courses, course changes, course retirements/deletions) **must be submitted to the Dean's Office through the Curriculum Manager (CM) system**. Proposal templates (in Word format) are available for departmental use on the Dean's [website](#) or from the Programs and Curriculum Coordinator [Sarah Chaudhry](#).
