

**PSYCHOLOGY B65S
FALL 2006**

Dr. Ted Petit
Office: S-557; Telephone: 287-7430
email: psyb65@utsc.utoronto.ca

Date	Topic	Book Chapters
Sep 11	Introduction, overview of CNS organization, anatomy, development and evolution.	1, 12, 13
18	Function of the cerebral hemispheres, brain vascular supply, cerebral ventricles, cerebral coverings.	2, 14
25	Neurological techniques and brain disorders (ischemia, tumors, hematomas, closed head injury, infections, M.S.)	3, 14
Oct 2	Neuronal function, epilepsy, transmitter substances	2, 3, 14
09	Thanksgiving (University closed)	
16	Sensory and motor systems and disorders.	5, 6
23	Psychiatric and degenerative disorders	2, 14
30	TENTATIVE Mid-Term Exam (approximate date only. Actual exam date to be announced by Registrar). Exam covers all lectures and chapters 1, 2, 3, 5, 6, 12, 13 and 14 from the text.	
Nov 6	Mechanisms of drug action, psychopharmacology of neural stimulants.	9, 15
13	Psychopharmacology of drug action, depressants, opiates, and hallucinogens.	11, 16
20	Cerebral dominance and the neuropsychology of language.	4, 15
27	Neuropsychology of brain damage and language: The aphasias.	8, 16
Dec 4	Neuropsychology of learning and memory, frontal and temporal lobe syndromes	7, 10

There will be two exams, a mid-term and a final, each worth 50% of the final mark. Makeup exams will only be given with a note from a physician, otherwise a "0" will be recorded for that exam. Note: the final exam is cumulative on all lecture material but not on the text. The date of the final exam will be scheduled by the Registrar.

Required Text: Neuropsychology: Clinical and Experimental Foundations by Lorin J. Elias & Deborah M. Saucier.
