

UNIVERSITY OF TORONTO

SCARBOROUGH

THE UNIVERSITY OF TORONTO SCARBOROUGH Neuroscience Program **NROD98: Thesis in Neuroscience, Fall 2022/Winter 2023**

1.0 CALENDAR DESCRIPTION

This course offers the opportunity to engage in a year long research project under the supervision of an interested member of the faculty in Neuroscience. The project will culminate in a written report in the form of a thesis and a poster presentation. During the course of the year, at appropriate times, students will meet to present their own research proposals, to appraise the proposals of others, and to discuss the results of their investigation. Students must first find a supervisor, which is usually confirmed before the start of the academic term in which the project will be initiated. Students will meet as a group with the coordinator as well as individually with their supervisor. Preference in this course is given to Specialists in Neuroscience with a cumulative GPA of 3.3 or higher. Students planning to pursue graduate studies are especially encouraged to enrol in the course. Students must obtain a permission form from the Department of Psychology's website that is to be completed and signed by the intended supervisor, and submitted to the Psychology Office. At that time, the student will be provided with an outline of the schedule and general requirements for the course. Students seeking supervision off campus will need to arrange co supervision with a faculty member in Neuroscience at UTSC.

2.0 COURSE INFORMATION

Prerequisite: Satisfactory completion of 15.0 credits in any discipline, including [[PSYB07H3](#) or [STAB22H3](#)] and [0.5 credit in a laboratory course from Psychology, Biology or Neuroscience] and consent of a faculty member in Psychology or Biology to serve as a research supervisor. Note: Preference will be given to students in a Specialist program in Neuroscience whose 15.0 credits include [[PSYC08H3](#) or [PSYC09H3](#)] and who have a cGPA of at least 3.3.

Exclusion: [BIOD98Y3](#), [PSYD98Y3](#), (BGYD98Y3), (BGYD99Y3), (BGYD01Y3), (BGYD02Y3)

Class meeting time: Fridays from 12 pm – 2 pm, Room AA 208 (In Person)

3.0 INSTRUCTOR CONTACT INFORMATION

Instructor: Professor Jonathan Cant (email: jonathan.cant@utoronto.ca; please put NROD98 in the subject line of any emails)

Virtual office hours: Thursdays between 12 pm – 2 pm (online via Zoom), or by appointment; A Zoom link can be found below. I will admit students from the waiting room and meet with them individually in turn; thus, there may be some wait time!

4.0 ONLINE COURSE RESOURCES

Quercus: <https://q.utoronto.ca/>

Quercus will be used as the main online resource for this course. All important course-related information (e.g. lecture slides, announcements, syllabus, class schedule, assignment information, message boards, grades, etc.) will be available via Quercus.

Zoom: Please create a Zoom account prior to the first class by clicking on the following link and following the instructions <https://act.utoronto.ca/zoom-information/>

Here is the Zoom link for virtual office hours:

<https://utoronto.zoom.us/j/89851748703>

5.0 OBJECTIVES AND LEARNING OUTCOMES

The purpose of this course is to provide students pursuing a specialist degree in Neuroscience with an intensive research apprenticeship. The course is designed to achieve the following

Learning Outcomes:

1. Students will develop a research question that identifies a gap in the existing literature, and that is informed by a current review of the published literature in the relevant area of research.
2. In collaboration with their faculty supervisor, students will design an experiment and implement the necessary procedures to conduct the research and complete the data collection, while always adhering to approved ethical standards in data collection.
3. Students will analyze their data using appropriate statistical techniques, and interpret their data based on the outcome of those analyses.
4. Students will become proficient in distinguishing between types of research articles, conducting a literature search using specialized databases, and using a citation management system.
5. Students will develop critical writing skills, including how to review a piece of literature for quality and pertinence, and then synthesize, paraphrase, and evaluate to produce a coherent piece of writing.
6. By the end of the course, students will have written a thesis that includes a review of the relevant literature, a clearly articulated research question and statement of rationale, a clearly articulated set of hypotheses, a detailed description of materials and methods, a plan for data analysis, a description of results, and a discussion of results within the framework of the published literature.
7. Students will develop oral presentation skills and have opportunities to practice them.
8. Students will become trained in research ethics for conducting research with both human and non-human animal subjects.

6.0 CLASS SCHEDULE

Note: I will be posting lecture slides by 11 am the day of a scheduled class.

Fall 2022:

Date	Topic	Items Due
September 16	• Introduction and overview	
September 23	• No class scheduled	• Research survey due by 11:59 pm
September 30	• Research workshop (with Sarah Guay, Librarian, UTSC)	
October 7	• No class scheduled	
October 10 – 14	READING WEEK, NO CLASS	
October 21	• CV/resume writing workshop (with Prof. Kyle Danielson)	
October 28	• No class scheduled	• Form documenting ethics meeting with supervisor due by 12 pm • TCPS2 certificate due by 12 pm • Ethics in animal research certificate due by 12 pm • Thesis proposal due by 12 pm
November 4	• Applying for graduate school	
November 11	• Ethics in science and the peer review process • Giving effective oral presentations	
November 18	• Oral presentations	
November 25	• Oral Presentations	
December 2	• Oral Presentations	

Winter 2023:

Date	Topic	Items Due
January 13	• No class scheduled	
January 20	• Writing workshop	
January 27	• No class scheduled	
February 3	• Peer review session	
February 10	• No class scheduled	• Draft introduction and methods due by 12 pm
February 17	• No class scheduled	
February 20 – 24	READING WEEK, NO CLASS	
March 3	No class scheduled	
March 10	• Poster workshop	
March 17	• No class scheduled	
March 24	• Writing support drop in	
March 31	• No class scheduled	
April 7	• Writing support drop in	
April 4		• Thesis poster due by 11:59 pm
April 10		• Thesis paper due by 11:59 pm
April 11		• Thesis Day, 10 am – 4 pm

7.0 EVALUATION

Supervisor grade: 60%

Second reader grade: 15%

Class grade: 25%

The breakdown of your evaluation for the class component is as follows:

1. Attendance and participation in scheduled meetings: 10%
2. Ethics requirement: 8%
3. Research proposal: 10%
4. Draft introduction and methods: 12%
5. Oral presentation: 30%
6. Poster presentation: 30%

1. Attendance/participation

The class will not meet every week during the year. For scheduled classes, however, attendance is mandatory (except where indicated). Attendance will be taken at each meeting, and information about your contributions to the class will be available to your supervisors. The opportunity during class for students to develop public speaking skills and to engage in discussion about research with peers is an important part of the overall research experience. Students must attend at least 50% of classes to receive any of this portion of this component of the grade (e.g., you will get a grade out of 10 proportionate to the number of classes you attended). A student may miss one class without penalty; however, any additional missed classes will be reflected in the final assessment of this component of the evaluation.

2. Ethics

All research in the University that involves living animals, human or non-human, must be approved by the appropriate ethics review board before the research can begin. There are 3 components to the ethics assignment for this course, and all students, regardless of whether they are doing human or animal research, are expected to complete each component. *The 8% that comprises this component of the evaluation is all-or-nothing; ALL components must be completed by October 28 to achieve the 8%.* That said, as part of the completion of the course requirements, ALL students must as a minimum complete the form that documents their meeting with their supervisor (item 'a' below), and the component of the ethics training corresponding to the type of research they are doing (human or laboratory animal; item 'b' or 'c' below):

a. *Meeting with supervisor to determine ethics requirements; submission of form documenting meeting (available on Quercus under the "Ethics Materials" module; Upload to Quercus by class-time October 28.* All students must consult with their supervisor first thing in the term to determine what review procedures have been followed for their projects and whether additional review proceedings are required before the work can be carried out. Many students will need to submit an "Undergraduate Ethics Review Protocol Form - Student-Initiated Projects" for approval by the Psychology "Delegated Ethics Review Committee" (DERC). The protocol form is available at <http://www.utsc.utoronto.ca/psych/experiential-learning>. Please speak with me, Ainsley Lawson, and/or your supervisor about the procedures for submitting these protocols for review. Ultimately, it is the responsibility of your supervisor to ensure that

your projects have met the necessary ethics review requirements; however, it is an important part of your education to know and understand what those requirements are. For this reason, you are asked to have a conversation with your supervisor about the ethics requirement for your particular project as early in the term as possible (form documenting meeting due October 28). Please discuss with your supervisor what, if any, special considerations apply to the approval of ethics for your project due to COVID-19, and whether these will affect your timeline for data collection.

b. *Completing Introductory Tutorial for the Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans (TCPS 2)*; **Upload to Quercus by class-time October 28**. All students are required to complete this tutorial online (<https://tcps2core.ca/welcome>), and obtain a certificate of completion to submit to Prof Cant (i.e., upload via Quercus) on October 28. If you already have a certificate of completion, dated within the past two years, you may submit this certificate and be exempt from repeating the course.

c. *Training in Ethical Research with Animals*; **Upload to Quercus by class-time October 28**. All students, regardless of whether they are working with live animals this year or not, must complete the University of Toronto's Division of Comparative Medicine short course on ethics in animal research. The course comprises its own Quercus page, to which all thesis students will be invited in mid-September. The course must be completed in its entirety by the deadline of October 28 (If you have already completed the course, within the past two years, you just need to upload proof of completion to Quercus and are exempt from repeating the course).

3. Proposal

You will submit a brief (300-500 word) proposal/plan for your research project, **uploaded to Quercus by October 28, 12 pm**. This proposal should include: a clear rationale for the research, a research question, hypotheses, and a brief description of the methodology. You should construct this short proposal in collaboration with your research supervisor.

This proposal will be graded on a 4-point scale: 1 = unsatisfactory (incomplete, poor development and writing); 2 = satisfactory (complete, poor development or writing); 3 = good (complete, development and writing meet expectations); 4 = excellent (complete, development and writing exceed expectations), with decimal values possible (e.g., 2.7, 3.4, etc.).

4. First draft of Introduction and Methods

Please **upload to Quercus by class-time February 10**, a well-developed first draft of your introduction and methods; also, please have a copy available during class-time to work with in a peer-review exercise during class time. This draft will be graded on a 4-point scale: 1 = unsatisfactory (incomplete, poor development and writing); 2 = satisfactory (complete, poor development or writing); 3 = good (complete, development and writing meet expectations); 4 = excellent (complete, development and writing exceed expectations), with decimal values possible (e.g., 2.7, 3.4, etc.).

5. Oral Presentation

Students will give a 20-25 min oral presentation of their thesis project, followed by a 5-10 min discussion period. Presentations must include a well-developed background of current literature in the relevant research area that provides a sound rationale for the research question under study. A clear statement of the research question and hypotheses must be provided, as well as detailed description of the methodology, research design, and data analysis techniques. Because presentations are scheduled for relatively early in the year, it is

not expected that most students will have data to present. If, however, a student has preliminary results that they wish to share, they may do so. In all cases, a discussion and interpretation of anticipated (or obtained) results, within the context of the published literature, must be provided. Tips on giving effective oral presentations will be provided in class on November 11, and presentations are scheduled for November 18, 25, and December 2. You will find out the specific date your presentation is scheduled for well in advance of this date.

A grading rubric for the presentations will be provided by October 28.

6. Poster Presentation

A poster conference (i.e., 'Thesis Day') is planned for April 11, in-person. This session will provide a valuable opportunity to present your final work and receive feedback from professors and peers. More details about poster content and layout will be provided in class on **March 10**. You will need to submit your final poster to Quercus **by Tuesday April 4, 11:59 pm**. **Please set aside time from 10 am to 4 pm on Tuesday April 11 for Thesis Day.**

FINAL THESIS SUBMISSION

Students are required to submit their final thesis to Quercus by **Monday April 10, 11:59 pm**. Further instructions for submitting documents will be provided later in the year. Late submissions will be subject to a penalty of 10% per day.

Important Dates

September 23: Research survey due by 11:59 pm

October 28: Form documenting ethics meeting with supervisor due by 12 pm
TCPS 2 certificate due by 12 pm
Ethics in animal research certificate due by 12 pm
Thesis proposal due by 12 pm

November 18: Oral presentations

November 25: Oral presentations

December 2: Oral presentations

February 10: Draft introduction and methods due by 12 pm

April 4: Thesis poster due by 11:59 pm

April 10: Thesis paper due by 11:59 pm

April 11: Thesis Day, 10 am – 4 pm

Policy on late assignments: late assignments will lose 10% for each day past the deadline that they are not submitted. Extensions will only be granted with proper documentation (i.e., documented family emergency, and/or missed term work accommodations form). Please note, according to UTSC policy, I am not permitted to extend the deadline for any assignment beyond 5 days past the last day of classes for the year (April 10).

Department of Psychology Missed Term Work Policy

For missed term work (assignments and term tests) due to illness, emergency, or other mitigating circumstances, please follow the procedures outlined below.

Note:

- The following reasons are not considered sufficient for missed term work: travel for leisure, weddings, personal commitments, work commitments, human error.
- [Missed Final Exams](#) are handled by the Registrar's Office and should be declared on eService.
- Instructors cannot accept term work any later than five business days after the last day of class. Beyond this date, accommodations are only possible via the Registrar's Office [petition process](#).

The email address to submit missed term work accommodation requests in NROD98 is: jonathan.cant@utoronto.ca

ILLNESS OR EMERGENCY accommodations:

For missed work due to ILLNESS OR EMERGENCY, complete the following process:

1. Complete the [Request for Missed Term Work Accommodations Form](#).
2. Declare your absence on [ACORN](#) (Profile & Settings > Absence Declaration)
3. Email **both** of the following items to the course email **within 2 business days** of the missed work:
 - a. the [Request for Missed Term Work Accommodations Form](#)
AND
 - b. a screenshot of your Self-Declared Absence on ACORN

Note:

- *If you are unable to submit your request within 2 business days, you must still email your instructor within the 2 business day window to explain the nature of the delay. Exceptions to the 2 business day deadline will only be made under exceptional circumstances.*
- *If your absence is declared on ACORN, we do not require any additional supporting documentation (e.g. medical notes) to support your missed term work accommodation request.*

ACADEMIC CONFLICT accommodations:

For missed term work due to an ACADEMIC CONFLICT (e.g. two midterms at the same time):

1. Complete the [Request for Missed Term Work Accommodations Form](#).
2. Take screenshots of your course Quercus pages that demonstrate the conflict.
3. Email the form and screenshots to the course email **at least two weeks (10 business days) before the date of the activity**, or as soon as possible if it was not possible to identify the conflict earlier. Requests sent after the activity deadline may not be accommodated.

Note:

- *Multiple assignments due on the same day are not considered conflicts. Students are expected to manage their time effectively to meet assignment deadlines.*
- *Back-to-back tests/quizzes are not considered conflicts. Only overlapping activities are conflicts.*
- *Students are responsible for keeping their course timetables conflict-free. Students who register in two courses with overlapping lecture/tutorial/lab schedules will not be accommodated.*

RELIGIOUS CONFLICT accommodations:

For missed term work due to a RELIGIOUS CONFLICT:

1. Complete the [Request for Missed Term Work Accommodations Form](#).
2. Email the form to the course **email at least two weeks (10 business days) before the date of the activity**, or as soon as possible if it was not possible to identify the conflict earlier. Requests sent after the activity deadline may not be accommodated.

ACCESSABILITY SERVICES accommodations:

For missed **TERM TESTS** due to ACCESSABILITY REASONS:

- **Contact your AccessAbility consultant** and have them email the course email detailing accommodations required.

For missed **ASSIGNMENTS** due to ACCESSABILITY REASONS:

- If your desired accommodation is **within the scope** of your Accommodation Letter (e.g. your letter includes “extensions of up to 7 days” and you need 3 days):
 1. Complete the [Request for Missed Term Work Accommodations Form](#).
 2. Email the form ***AND*** your **Accommodation Letter** to the course email specifying how many days extension you are requesting.
- If your desired accommodation is **outside the scope** of your Accommodation Letter (e.g. your letter includes “extensions of up to 7 days” but you need more time than that):
 1. **Contact your AccessAbility consultant** and have them email the course email detailing the accommodations required.

Accommodation Procedure:

After submitting your documentation, you will receive a response from your instructor or TA. This form does not guarantee that you will be accommodated. The course instructor reserves the right to decide what accommodations (if any) will be made. Failure to adhere to any aspect of this policy may result in a denial of your request. **You are responsible for checking your official U of T email and Quercus course announcements daily**, as accommodations may be time-critical.

For missed assignments, **do not wait for the instructor's response to resume work on your assignment**. Extensions may be as short as one business day, depending on the nature of the illness/emergency. Complete your assignment as soon as you're able, and email it to your instructor.

For an **anticipated absence** (e.g. a scheduled surgery or an illness with a prolonged recovery period), if you would like to request accommodations in advance, submit a [Verification of Illness Form](#) completed by your doctor AND the [Request for Missed Term Work Accommodations Form](#) to the course email. Absences can be declared up to 14 days into the future on ACORN.

Missed Accommodations

If an accommodation is granted but a continued illness/emergency prevents you from meeting its requirements, you must repeat the missed term work procedure to request additional accommodations. **Please make it clear in your subject line that you are requesting a second accommodation**. E.g. If you are given an extension but are still sick and need more time, or if you miss a make-up term test, you must submit *another* [Request for Missed Term Work Accommodations Form](#) and declare your extended absence on ACORN. *Note: In the case of a missed make-up test, an opportunity to write a second make-up test may not necessarily be provided.

NOTE: Assignments due at end of term

Instructors cannot accept term work any later than five business days after the last day of class. Beyond this date, you would need to file a petition with the Registrar's Office (<https://www.utsc.utoronto.ca/registrar/term-work>).

Disability-Related Accommodations

Students with diverse learning styles and needs are welcome in this course. In particular, if you have a disability/health consideration that may require accommodations, please feel free to approach me and/or the AccessAbility Services Office (<http://www.utsc.utoronto.ca/ability/>) as soon as possible.

AccessAbility Services staff (located in Rm AA142, Arts and Administration Building) are available by appointment to assess specific needs, provide referrals and arrange appropriate accommodations. Please contact 416-287-7560 (tel/TTY) or email ability.utsc@utoronto.ca for more information. The sooner you let us know your needs the quicker we can assist you in achieving your learning goals in this course.

Religious Accommodations

The University has a commitment concerning accommodation for religious observances. I will make every reasonable effort to avoid scheduling tests, examinations, or other compulsory activities on religious holy days not captured by statutory holidays. According to University Policy, if you anticipate being absent from class or missing a major course activity (like a test, or in-class assignment) due to a religious observance, please let me know as early in the course as possible, and with sufficient notice (at least two to three weeks), so that we can work together to make alternate arrangements.

8.0 ADDITIONAL INFORMATION

Help With Writing

If you would like help with academic writing, the following resources are available to you:

- The Centre for Teaching and Learning (AC312) Writing Centre offers students one-to-one appointments and supplementary materials to help improve upon their writing skills.

<http://ctl.utsc.utoronto.ca/home/>

<http://ctl.utsc.utoronto.ca/twc/>

- The English Language Development Centre offers support and specialized writing programs for students who do not speak English as their primary language.

<http://ctl.utsc.utoronto.ca/eld/>

- Advice on academic writing

<http://www.writing.utoronto.ca/advice>

Academic Integrity

The University treats cases of cheating and plagiarism very seriously. The University of Toronto's Code of Behaviour on Academic Matters

(<http://www.governingcouncil.utoronto.ca/policies/behaveac.htm>) outlines the behaviours that constitute academic dishonesty and the processes for addressing academic offences.

Potential offences in papers and assignments include using someone else's ideas or words without appropriate acknowledgement, submitting your own work in more than one course without the permission of the instructor, making up sources or facts, obtaining or providing unauthorized assistance on any assignment.

On tests and exams cheating includes using or possessing unauthorized aids, looking at someone else's answers during an exam or test, misrepresenting your identity, or falsifying or altering any documentation required by the University, including (but not limited to) doctor's notes.

University's Plagiarism Detection Tool

Normally, students will be required to submit their course essays to the University's plagiarism detection tool for a review of textual similarity and detection of possible plagiarism. In doing so, students will allow their essays to be included as source documents in the tool's reference database, where they will be used solely for the purpose of detecting plagiarism. The terms that apply to the University's use of this tool are described on the Centre for Teaching Support & Innovation website (<https://uoft.me/pdt-faq>).

AccessAbility Services

Students with diverse learning styles and needs are welcome in this course. In particular, if you have a disability/health consideration that may require accommodations, please feel free to approach me and/or the AccessAbility Services as soon as possible.

AccessAbility Services staff (located in Rm SW302, Science Wing) are available by appointment to assess specific needs, provide referrals and arrange appropriate accommodations [416-287-7560](tel:416-287-7560) or email ability@utsc.utoronto.ca. The sooner you let us know your needs the quicker we can assist you in achieving your learning goals in this course.

Literature Searches

Students can use the following resources when conducting literature searches to find relevant articles for their presentation and final essay:

The UTSC Library (AC235)

<http://www.library.utoronto.ca/utsc/>

PubMed

<http://www.ncbi.nlm.nih.gov/pubmed>

PsychINFO

<http://www.apa.org/pubs/databases/psycinfo/index.aspx>

Google Scholar

<http://scholar.google.ca/>

For Your Health

The Health and Wellness Centre (SL270, 416-287-7065) provides diagnostic, treatment and referral services for all illnesses ranging from the medical to psychological to health promotion. The professional staff of physicians, nurses and counselors provides personal advice and assistance with family issues, eating disorders, depression, stress, drug and alcohol abuse, relationship issues, a positive space for gender/sexuality issues, and more.

<http://www.utsc.utoronto.ca/wellness>
